Subject: NATIVE HAWAIIAN RECONCILIATION DRAFT REPORT

TO those officials with the future of a nation in their hands.

Give the Hawaiian people their Nation back. The US has illegally occupied this land for too long. Give them their land back, take the military and the US government and pack up and go back to the mainland.

The Apology from the President and signed by Congress in 1993 says that the next logical step is complete sovereignty. DO NOT COME UP SHORT. Do not establish the Hawaiians as a tribal status like the Native American Indian. The Hawaiian islands are the Nation of Hawai'i's land and you should give it back to them and officially secede the State from the Union and grant it back to the Nation of Hawai'i. Anything short of this result would be a continuation of our suppression of a militarily and financially less powerful ethnic race for the benefit exploitation of the American people as a tropical vacation park and a military base. This is totally against my beliefs and I object to the conclusions and recommendations of the Draft Report. Total sovereignty is the only acceptable conclusion and form of reconciliation.

"...the logical consequences of this resolution would be independence."

- Senator Slade Gordon (R-Washington), US Senate Congressional Record

Wednesday, October 27, 1993, 103rd Cong. 1st Sess.

Sincerely,
Jade Sullivan, US Citizen

For the sake of Americans, for the Nation of Hawai'i's sake and for God's sake, please do the right thing.
